Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The present invention is related to field of modems and network servers, and more specifically to modems and servers that request a modem-On-Hold and can deny such a request under certain conditions.

The prior art of record in combination or alone fails to teach or suggest these elements of the independent claims 1, 8, 12, 19, 23, 30, 34 and 41 in combination with other elements. For example independent claim 1 has claim limitations such as establish a modem connection with a modem over a telephone line, exchange data with the modem over the modem communication, receive from the modem a first request for temporarily disconnecting the modem connection, grant the first request and starting a timer, receive from the modem a second request for temporarily disconnecting the modem connection again, consult the timer to determine whether a log-in session timeout has been exceeded, and if the log-in session timeout time has been exceeded, deny the second request. Independent claim 8 has claim limitations such as establish a modem connection with a network device over the telephone line, exchange data with network device over the modem connection, transmit through the modem connection a first request for temporarily disconnecting the modem connection, temporarily discontinue the modem connection pursuant to the first request, receive from the network device a warning message that the next request for temporarily disconnecting the modem connection will be denied. Independent claim 12 has similar limitations as independent claim 1. independent claim 19 has similar limitation as independent claim

Art Unit: 2614

8. independent claim 23 has similar limitations as independent claim 1. Independent claim 30 has similar limitations as independent claim 8. Independent claim 34 has similar limitation as independent claim 1. Independent claim 41 has similar limitations as independent claim 8. For the above reasons, independent claims 1, 8, 12, 19, 23, 30, 34, 41 and dependent claims 2-7, 9-11, 13-18, 20-22, 24-29, 31-33, 35-40, 42-44 are allowable.

2. Claims 1-44 allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

--(6,345,088) to Gu et al. discloses a modem that handles interruptions caused by call waiting signals.

--(6,377,668) to Smock et al. discloses a method and apparatus to inform on line computer user of the incoming telephone call without disabling an associated modem connection.

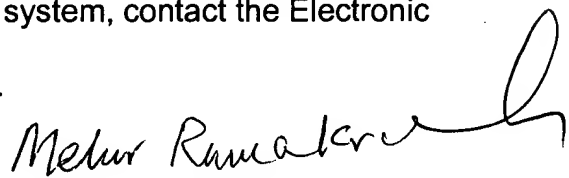

--(6,690,776) to Raasch discloses communication on hold notifier.
